20. From a list of integers, create a list removing even numbers.

```python
print("From a list of integers, create a list removing even numbers")
list=[]
print("Enter length of list")
n = int(input())
print("Enter numbers one by one : ")
for i in range(0,n):
    a = int(input())
    list.append(a)

print(list)
b = len(list)
c=[]
for a in range(0,b):
    if list[a]%2!=0:

        c.append(list[a])

        #update 14 and 20

print(c)
```

Output:

From a list of integers, create a list removing even numbers

Enter length of list

5

Enter numbers one by one :

2

3

4

5

6

[2, 3, 4, 5, 6]

[3, 5]
